# Environmental Credentials

Steelite International work closely with a number of suppliers and organisations, and are continually monitoring, developing and improving procedures to create minimum impact on the community and environment, while ensuring maximum efficiency and cost savings for the future sustainability of the business.

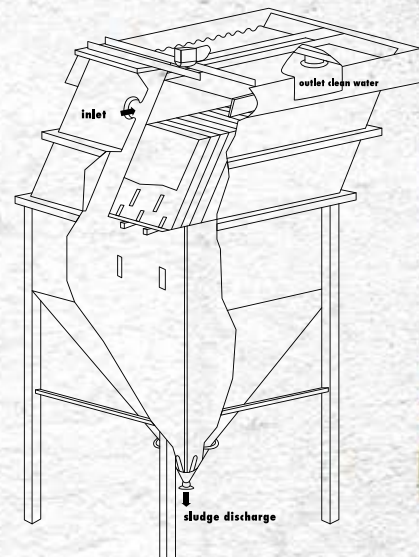

Steelite International is a member of The Green Organisation that rewards and promotes environmental best practice around the world, and the Staffordshire Business & Environmental Network, which aims to help local businesses reduce environmental impacts while also generating profits.

We have a dedicated and innovative approach to caring for the environment. In 2007, the business became one of only five companies in the UK to install a Lamella system. Steelite is the only tableware manufacturer to use a Lamella system for recycling clay waste.

In addition to clay recycling, fewer chemicals are now required to separate waste. This has a positive effect on the environment and water discharged from the site is also purer.

**The Lamella has significantly reduced Steelite International's impact on the environment. The company now recycles in excess of 90% of manufacturing waste. In 2010 we received a Green Apple Award for the Lamella project.**

### ASMA KHAN FOUNDER • Darjeeling Express, London UK

Darjeeling Express started as a dinner for 12 guests at home, serving Indian food lovingly cooked from family recipes that go back generations. "I wanted the plates to be a frame for my food - the brown dappled edge was exactly what I wanted and Steelite kindly made a range bespoke for me - and added the logo too. One of our starter dishes - the chilli garlic prawns is heavily instagrammed - the bespoke Steelite plate the perfect background! So happy I spent time and resources on my tableware - every time I walk into my restaurant and see the tables set up for service my heart smiles - I am still so in love with the plates one year since we opened."

### a daring pattern for a dramatic presentation

Koto, one of Steelite International's most unique ranges, was designed in collaboration with world renowned chef, David Kinch. The inspiration was drawn from ancient Japanese Tenmoku Glazes. These beautiful glazes vary subtly in texture and tone from piece to piece, embodying the craft of the traditional potter. The pieces are hand finished with a rich iron red glaze, which interacts in the kiln to produce a warm, organic, lustrous effect. The deep black textured surface allows food to be perfectly framed, adding drama and contrast to your presentation.

### the original craft

With two striking new colours – Licorice and Porcini, Craft tableware creates a memorable experience for diners. The new Licorice adds drama and sophistication to the entire range and is in sync with the current trend for black tableware. Visually appealing, Porcini works well with the existing Craft colours, amplifying the rustic effect and reinvigorating an already iconic and market-trusted range. The range embodies the beauty of rich, lustrous glazes applied by hand, and celebrates chance effects and reactions which occur in the kiln.

**natural inspired warmth**

Craft is inspired by hand-crafted, simple country wares made by generations of potters over hundreds of years. The range embodies the beauty of rich, lustrous glazes applied by hand, and celebrates chance effects and reactions which occur naturally in the kiln. The gem-like glazes married to simple forms and shapes produce a unique and individual appearance, giving Craft a rustic "joie de vivre."

## beautifully fractured linear patterns

Crackle patterns have a long and distinguished history going back millennia. Crackling occurs when the glaze does not fit the clay body of the ware correctly, causing it to fracture into beautiful linear patterns, covering the entire surface of the glazed piece. Available in two colourways, Black and Grey, Crackle will add texture and nuance to casual and contemporary food presentations and is aesthetically compatible with both plain white and many of our craft inspired ranges.

## clean crisp colour

The Terramesa range is full of colour and rustic style, and as the name suggests, it has been designed to be both natural and earthy. Whether it's Mexican food with its hot and vibrant colours, Spanish tapas or Asian food, Terramesa offers an exceptional range of shapes and sizes to complement the colours and ingredients present in these types of cuisine. With the growing trend for artisan inspired hand crafted ranges Terramesa gives your tabletop that wow factor. Decorated in four complementary shades and hand-finished with a textured reactive glaze on the edge, Terramesa looks stunning when colours are mixed or used independently.

ROYAL CROWN DERBY  
MADE IN ENGLAND

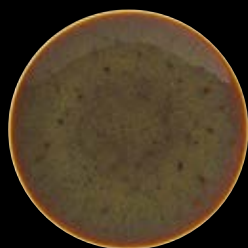

### premium polished perfection

The Art Glaze range from Royal Crown Derby constitutes an upmarket artisan aesthetic allied to the purity and whiteness of fine bone china. Each piece is unique as reactive glazes obtain their beauty through random and chance effects due to kiln firing, glaze chemistry and their being applied by hand.

The four coloured glazes have been developed to be beautiful individually, or in contrast with each other. Special attention has been given to deliver a refreshing, high-end presentation platform to best showcase chef-driven menus.

## unique natural extraordinary

The Potters Collection by Robert Gordon includes an exciting and informal assortment of embossed plates, platters, bowls and accessories in two unique colours: Pier and Storm. Each colour has a distinct finish that is stunning on its own or can be beautifully mixed to create an unforgettable tabletop. The reactive glaze on Pier and Storm ensures that no two pieces of this Australian-designed porcelain will be exactly alike, and Pier's neutral taupe and Storm's deep blue colour intensity varies from piece to piece.

**SONATA™**

### **soul satisfying sophistication**

Design by Rene Ozorio, the Sonata collection's embossment is a delicate note which complements the strong direction of the shapes. A welcome departure from the formal "nouvelle" and "fusion" cuisine of the past, Sonata's sophisticated embossment of radiant lines centres the visual focus on the well of each plate and bowl, placing emphasis on the cuisine being served.

# CRUCIAL DETAIL

## Ultimate style and design

Martin Kastner's diverse career began in an unconventional way, at a 16th century castle restoring historical metalworks in Western Bohemia. From blacksmithing to design to conceptual art projects, a common sense of function and aesthetics ties Kastner's work together. His unique chef driven pieces revolutionise the way we think about food.

The journey for Crucial Detail began in 2003 when Chef Grant Achatz contacted Kastner and a culinary collaboration was born. Their first project, a collapsible tripod for frozen hibiscus tea, profoundly resonated with guests and planted the seed to countless designs for the famed Alinea restaurant. Kastner also designed the showpieces for Team USA in 2015 & 2017 at the famed Bocuse d'Or Competition in Lyon, France. Additional collaborations with notable chefs including Laurent Gras, Wolfgang Puck and Alex Stupak have captivated the industry by creating entirely new and beautiful ways of presenting food.

CRUCIAL DETAIL  
**PLATEAU™**

### softly dipped delights

This timeless, subtle design seamlessly marries form and function creating a fresh take on a blank canvas for chefs everywhere. Elegant in its simplicity, this collection lifts the flat plate above the table's surface for ease of transport without compromising presentation. A subtle relief in the centre allows chefs to build on the high and low points of each piece, creating a gentle play of light and shadow on a pure geometric form.

**PARENTHESSES™**

**crisp contained creations**

Bringing the chef's presentation to sharp focus is what first inspired the Parentheses collection by Crucial Detail. Just as attention is centred on wording within a parentheses in text, so is emphasis drawn to the food when plated on a Parentheses piece. Smooth, clean lines of each piece ensure the guest's attention to aesthetic is where it should be – your food.

HONEYBOURNE™

NEW RANGE

Inspired by the traditional silversmith technique of planishing, the Honeybourne collection makes a tactile and light reflecting statement on the table. Featuring classic proportions of long tines and a traditional heel, the deliberately thin neck exaggerates the wide curves of the subtly textured handle. The feel in the hand is well-considered as the texture fades to smooth at the neck of each piece.

# THRILL

THRILL  
VORTEX™

## NEW RANGE

A unique machine that not only sanitises in seconds, but keeps drinks cooler for longer without watering down the beverage or altering the flavour and aroma. Ever wondered why cocktails served in the trendiest bars taste so much better? The answer may not lie in the contents of the glass, but within the glass itself. A glass that has been cleaned and sanitised properly enhances the overall taste experience. The invisible residue that remains after washing may taint the taste and odour of drinks, compromising the quality of beverage served.

With THRILL, it takes just a few seconds to thoroughly sanitise and chill a glass, leaving it completely free of any unpleasant odours or aftertaste, giving customers the perfect serve and taste experience.

Stylish and theatrical, THRILL is a must have for upmarket bars and restaurants.
